

Vantive ServiceNow Portal

Finance and Procurement Registration Guide

ServiceNow is a comprehensive query resolution tool selected by Vantive to engage suppliers and internal users' queries related to **Accounts Payable** and **Procurement** processes.

In the tool, suppliers will be able to create cases, attach documents, and follow up on inquiries relating to any Finance or Procurement related system or process. This platform aims to streamline communication, enhance transparency, and improve resolution efficiency across all Procurement and Finance interactions.

To start using the tool, please follow the guidelines below to create your account and start using the tool to submit your queries.

Important Note: This guide has been developed for Vantive suppliers. However, some images, logos, or visual references may still reflect elements of the Baxter brand, as certain content and processes are currently undergoing transition. This does not affect the validity or applicability of the information provided.

Registering into the Portal

If you are a new vendor registering for the first time, please follow the steps below:-

1. Go to <https://baxter.service-now.com/csm>

2. In the top right corner, click on **'Register.'**

3. Complete the Supplier registration form.

4. You should receive an email from **'My Baxter ID.'**

5. Click on the link to **Verify your account** and follow the instructions to create a password and a security question in My Baxter ID site. The email will contain your username; this will be different in case you need to create one account for more than one company.

Setting up your account:

The system will prompt you to enter a password. Please proceed to create a safe password for your account.

Set up multifactor authentication.

Vantive requires multifactor authentication to add an additional layer of security when signing in to your account.

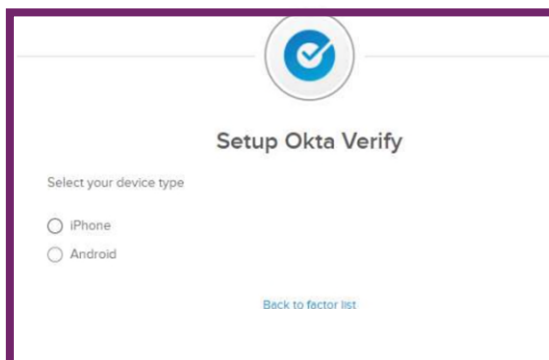

Once the account is created, and no authentication methods have been configured, the system will require configuring at least one of the options (more than one option is preferable). The available options are:

- Okta Verify
- Google Authenticator
- SMS Authentication
- Voice Call Authentication
- Email Authentications

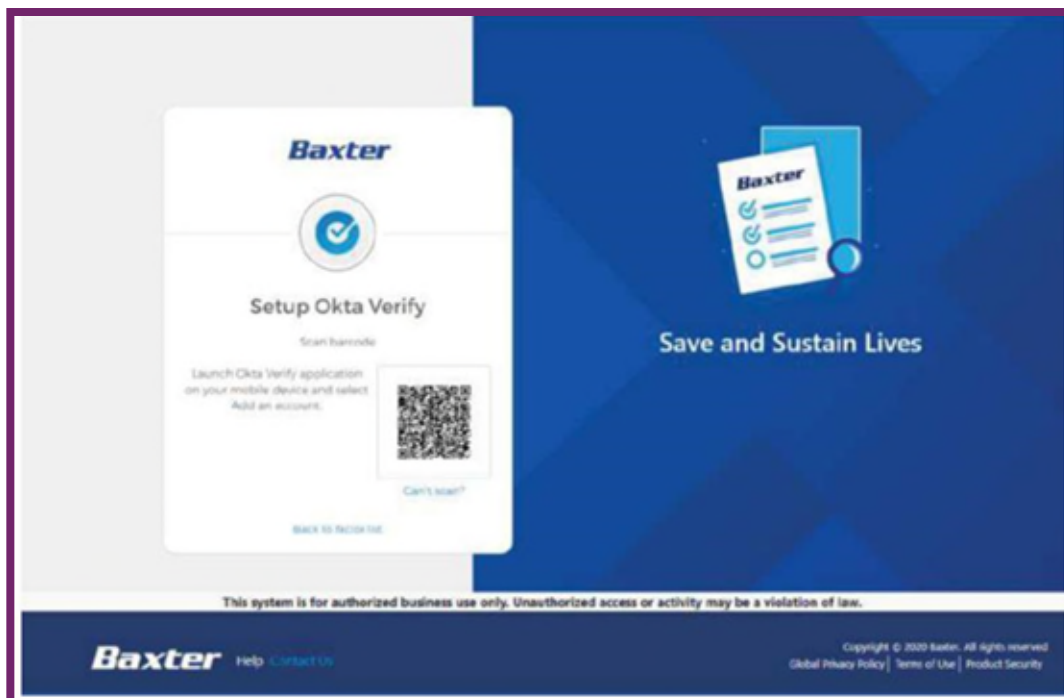

To configure the options, you need to click on '**Setup**' and follow the steps provided by the system:

Okta Verify:

1. Download Okta Verify app from App Store or Google Play Store. This app is available just for mobile.
2. Select your device type:

3. Launch Okta Verify application on your mobile device and select add an account or tap the “+” icon (choosing Organization as Choose account type). Then select ‘Yes, Ready to Scan’ where it asks, ‘Do you have your QR Code?’ and scan the code provided by the system.

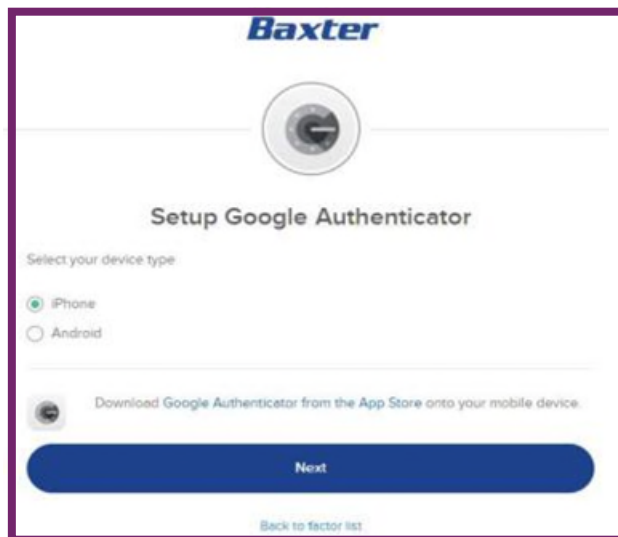

4. Once completed, the system will show Okta Verify with a green check mark.

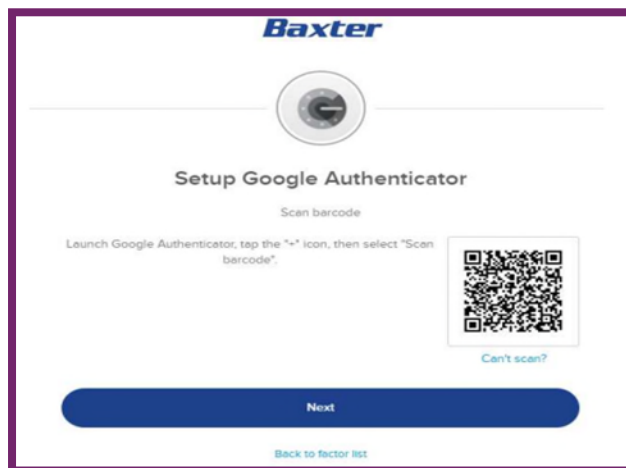

Google Authenticator:

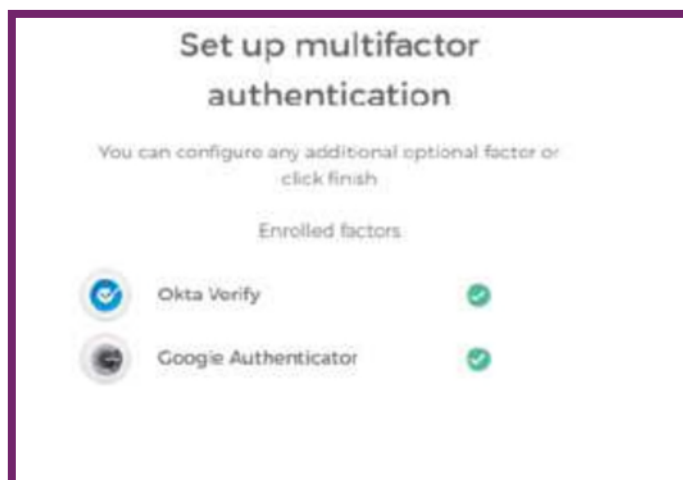

1. Download Google Authenticator app from App Store or Google Play Store. This app is available just for mobile.
2. Select your device type:

3. Launch Google Authenticator, tap the “+” icon, then select “Scan a QR Code.”

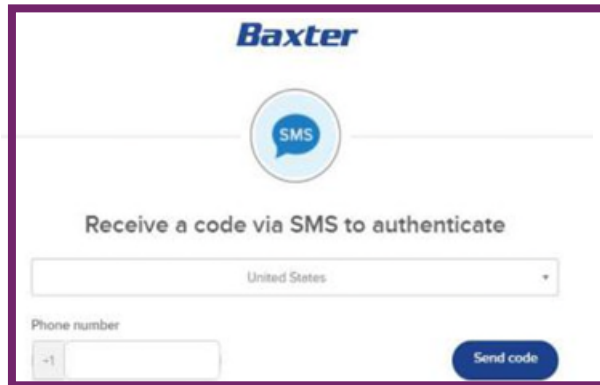

4. Once completed, the system will show Google Authenticator with a green check mark.

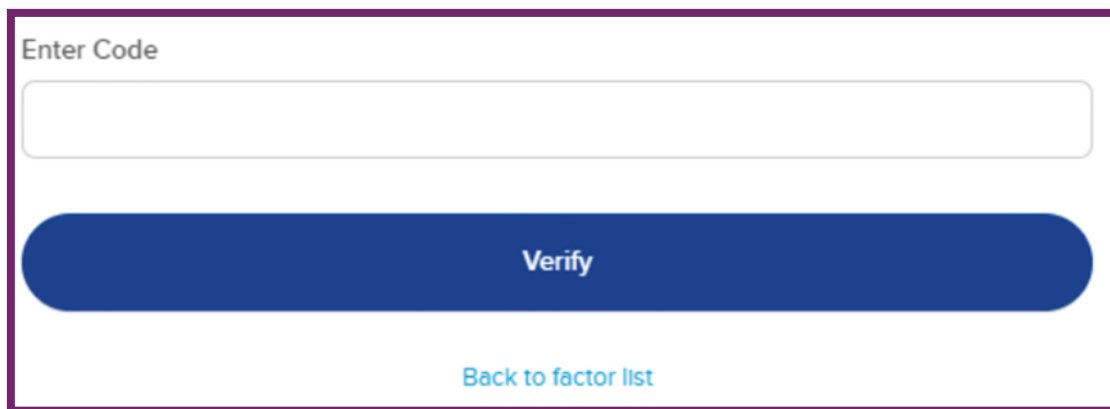

SMS Authentication:

1. Change country and enter your mobile number. Click on Send Code.

A screenshot of the Baxter SMS authentication setup screen. At the top is the 'Baxter' logo. Below it is a circular icon with 'SMS' inside. The text 'Receive a code via SMS to authenticate' is centered. There is a dropdown menu for 'United States' and a 'Phone number' field with a country code selector showing '+1'. A blue 'Send code' button is at the bottom right.

2. You will receive an SMS that contains Baxter: (code). Enter the code and click on verify.

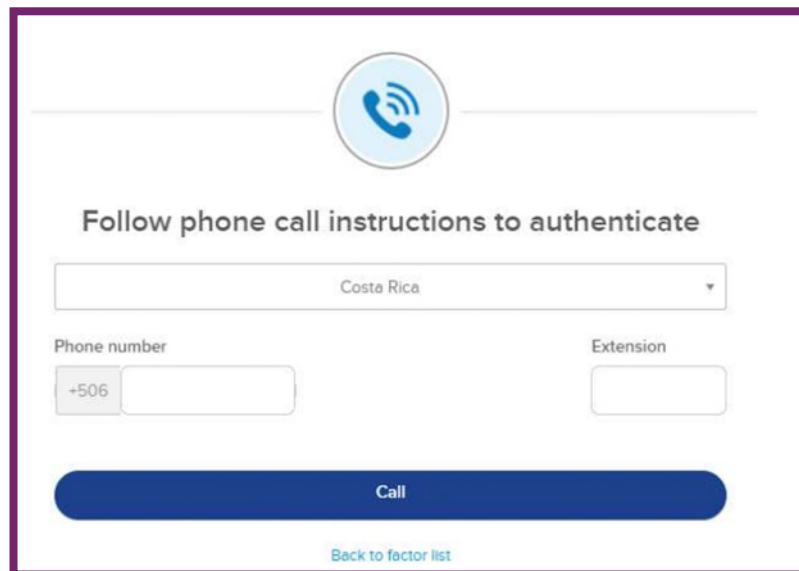

A screenshot of the Baxter SMS authentication verification screen. It features a large text input field labeled 'Enter Code'. Below the field is a large blue rounded button labeled 'Verify'. At the bottom, there is a link that says 'Back to factor list'.

3. Once completed, the system will show the SMS Authenticator with a green check mark.

Voice Call Authentication:

1. Change country and enter your mobile number and extension if applicable. Click on 'Call'

The form is titled "Follow phone call instructions to authenticate" and features a blue phone icon at the top. It includes a dropdown menu for country selection, currently showing "Costa Rica". Below this are two input fields: "Phone number" with a pre-filled "+506" and "Extension". A large blue "Call" button is positioned below the input fields, and a "Back to factor list" link is at the bottom.

Follow phone call instructions to authenticate

Email Authentication:

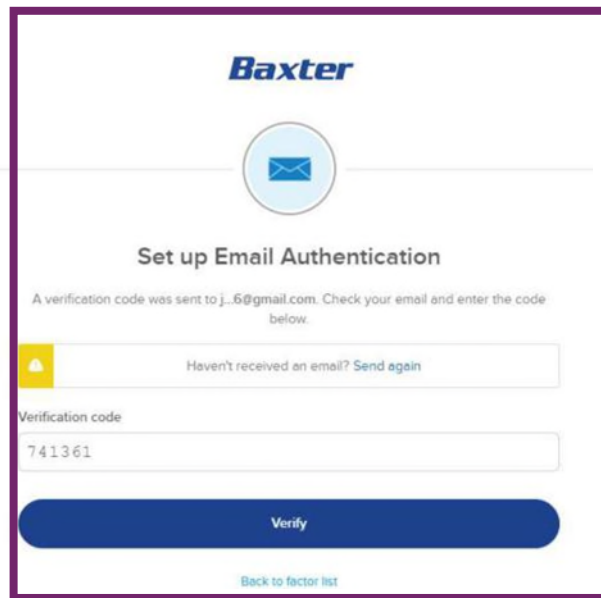

1. Click on 'Send me the code.'

A screenshot of a web form titled "Verify with Email Authentication". At the top, there is a blue envelope icon inside a circle, followed by a small dropdown arrow. Below the icon, the text reads: "Verify with Email Authentication". Underneath, it says: "A verification code was sent to j...6@gmail.com. Check your email and enter the code below." There is a label "Verification code" followed by a large, empty text input field.

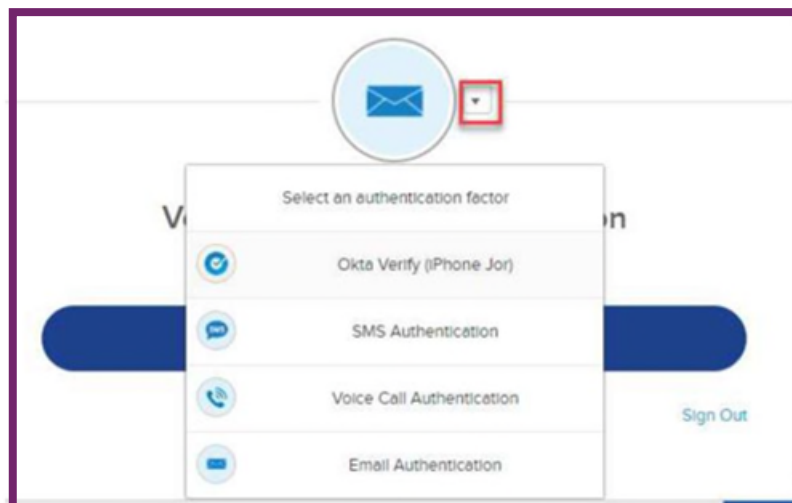

2. You will receive an email with the verification code, copy and paste in the 'Verification Code' field.

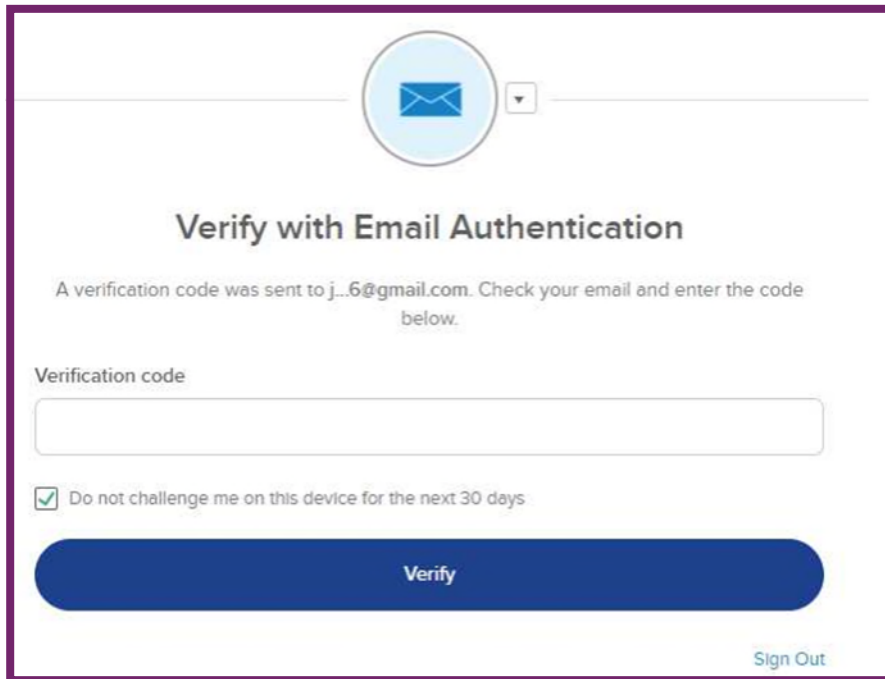

The screenshot shows the 'Baxter' login interface for setting up email authentication. At the top is the 'Baxter' logo. Below it is a circular icon with an envelope. The title 'Set up Email Authentication' is centered. A message states: 'A verification code was sent to j...6@gmail.com. Check your email and enter the code below.' There is a yellow bell icon and a link 'Haven't received an email? Send again'. Below that is a 'Verification code' field containing '741361'. A large blue 'Verify' button is at the bottom, with a 'Back to factor list' link underneath.

Once you have completed configuring the authentication methods click on Finish. The system will require you to verify with any of the methods chosen. You can switch the method by clicking on the dropdown icon and selecting the preferred method (that will be possible if you configure at least 2 methods, otherwise, the system will show one by default).

The screenshot shows a dropdown menu for selecting an authentication factor. The dropdown is open, showing four options: 'Okta Verify (iPhone Jor)', 'SMS Authentication', 'Voice Call Authentication', and 'Email Authentication'. Each option has a corresponding icon. The background shows the 'Sign Out' button and a dropdown icon on the top right of the interface.

You have the option to check the box 'Do not challenge me on this device for the next 30 days' it means in the next 30 days the system will require your user id and your password.

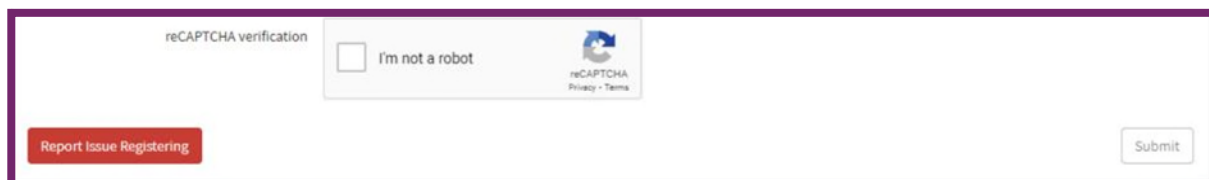

The image shows a web form titled "Verify with Email Authentication". At the top, there is a blue envelope icon inside a circle, followed by a small dropdown arrow. Below this, the title "Verify with Email Authentication" is centered. A message states: "A verification code was sent to j...6@gmail.com. Check your email and enter the code below." There is a text input field for the "Verification code". Below the field is a checkbox labeled "Do not challenge me on this device for the next 30 days", which is checked. A large blue button labeled "Verify" is at the bottom. In the bottom right corner, there is a "Sign Out" link.

Once your account has been set up, you should go back to the Portal page and login with your newly created credentials.

If the validation fails

Validation can fail if the tax ID number does not match our records. This could be either because of special characters or your record not being matched completely. If any issue is prompted, please use the **'Report Issue Registering'** in the bottom left corner of the registration page:

The image shows the bottom section of a registration page. It includes a "reCAPTCHA verification" box with an "I'm not a robot" checkbox and a reCAPTCHA logo. Below this, there is a red button labeled "Report Issue Registering" on the left and a "Submit" button on the right.

This will prompt a new registration form where you can notify the issue you are seeing. Once you complete the information, verify the captcha and click on submit. This will create one case in our database and one of our agents will contact you within 2 business days to help you create or validate your account.

After you have successfully registered

Login into the Portal

Go into <https://baxter.service-now.com/csm>

1. Go into the top right corner and click on Login:

3. In the login page, click on **Vantive Supplier Login** and select the corresponding company.

4. You will be prompted to enter your Baxter ID credentials: the username (that should be an email address) and the password you created. If you have more than one account, you will open cases for the logged in user. Please make sure you use the correct credentials to raise/see cases for the correct company. If you click on the '**Remember me**' box, automatic login should happen for future visits to the portal.

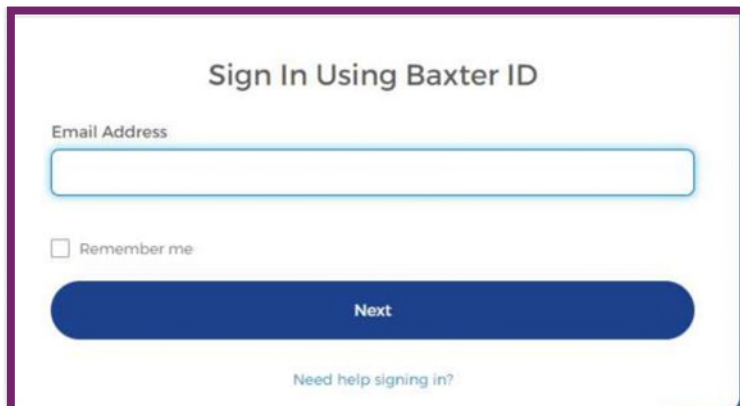

Issues with your account or password?

Please go to the following link and complete all the fields required in the form https://baxter.service-now.com/csm?id=csm_report_login_issue The support team will get in touch with you as soon as possible.

Changing your security question

If you need to change the security question in your account, please follow the next steps.

1. Go to: <https://mybaxterid.baxter.com/app/UserHome>
2. Log in with your username (email) and password.

A screenshot of a web form titled "Sign In Using Baxter ID". The form is enclosed in a purple border. It contains a label "Email Address" above a text input field. Below the input field is a checkbox labeled "Remember me". At the bottom of the form is a large blue button labeled "Next". Below the button, there is a link that says "Need help signing in?".
